FOR PARENTS OF LITTLE SCHOOL TOTS

TRAINING LITTLE CITIZENS.

(By Bertha Johnston.)
"The greater man, the greater courtesy."

In every home opportunities should be made for the little children to practice consideration and care for something weaker than themselves. The cherishing instinct, both in the individual and the family, needs cultivation and direction. It is manifested in the love of little girls for their dolls and in the devotion of boys to their pets. If this quality of nurture, is not exercised or properly directed, it withers; for affections must be exercised if they are to develop. We often see spoiled children in American families, where all their desires are gratified without effort on their own part and they are given no opportunity to serve. Many a mother virtually makes a slave of herself for her children, humoring every whim, and relieving them of all care, trouble and responsibility, only to find when they are grown that they are utterly selfish and inconsiderate.

Unfortunate, too, is the only child or the youngest member of the family, who is overindulged, with no more dependent member of the house to call forth his tender feelings. Herein lies one great value of the kindergarten, where children are given opportunities to help those younger than themselves.

For the child without companions in the home, the parent should provide occasions that require service or sacrifice for others. Arrange to have his friends come frequently to play with your little one, and share his toys, suggesting that the little guests must have the best.

Adaptability is gained thru companionship with one's equal. From association with boys, little girls learn something of fair play, and become acquainted with the sturdier virtues; while, from girls, the boys learn to have a chivalrous attitude toward womankind.

If pets have young, the child's mother should call attention to the care of the mother for her little ones, and her courtesies and self-sacrifice whenever the young are endangered. A child should be taught to take entire charge of his pets, to weed and care for his garden, if he is to receive the full benefit in character development and achieve the self-reliance which comes from the responsibilities accepted.

Then, too, good manners which spring from consideration are as essential to the happiness of the world as are good morals, and parents should be examples of both to their children. How often virtuous people make us unhappy by their lack of tact! Courtesy and graciousness smooth out the rough places of life. A tiny boy of 3 can raise his hat and one of 5 can rise at table and push mother's chair into place. When older people enter a room, children should rise; in fact, they should be taught to practice all the little civilities. But courteous manners are taught slowly, "for precept must be upon precept, precept upon precept; line upon line, line upon line; here a little and there a little." Many a man of good character has greatly limited his usefulness by his lack of "polish," because his mother, either from stupidity or over-indulgence, neglected his social training!

At this momentous time, it is especially important that all means possible be employed to foster the instinct of caring for the weak and dependent.

It would be well if more children were made to feel responsible for some child of less favored circumstances. It is astonishing how boys and girls will rise to the occasion when responsibility is placed upon them. In 1913 my 11-year-old niece who lived in London, had a "godchild" in another city, to whom she wrote at Christmas-time and other holidays.

At the present time the millions of little Allied orphans should make a strong appeal to the childhood of America. Correspondence between them would not only teach our children consideration for others and develop their familiarity with a foreign language, but it would also help cement the friendship of America with her Allies and greatly promote the cause of Internationalism.

Help to reach all the parents of the country by cutting this out and passing it on to a friend.

MANY COMPLAINTS OVER M. C. TRAIN SERVICE.

Residents of Northeastern Michigan cities and counties served by the Michigan Central R. R. are getting up in arms over the failure of that road to provide a train service, which enables them to get back and forth to Bay City or Saginaw without making trains at unearthly hours of the night and, in some cases, taking almost two days to make a trip which should be made in one.

The business men of Gladwin, Sterling, West Branch, backed by the Bay City Board of Commerce and the Northeastern Michigan Development Bureau, have been doing their utmost to have a train put on which will give a satisfactory service, but up to the present time the only result of all these efforts has been a promise to give their requests due consideration which doesn't seem to bring results.

IN THE OCTOBER CIRCUIT COURT

An extremely brief calendar faced the judge and jury at the October term of court, just finished. There was but one criminal case, that of Ford Willett, charged with violation of the liquor law. The accused was in jail awaiting trial and one bright day, while working in the yard, made his escape.

The big event of the term was the case of B. Peter Johnson of Frederic vs. Charles Peterson of Wolverine, William H. Cody, Alonzo Collen, Martin Hanson and Rasmus Hanson, accused of trespass on the case. This was a case arising out of a suit in replevin wherein Mr. Peterson was the plaintiff, Mr. Cody and Mr. Collen, sheriff and deputy sheriff respectively, and Messes. Hanson, bondsmen for the sheriff. In the replevin case a team of horses was recovered from Mr. Johnson, Deputy Sheriff Collen, serving the papers at the orders of Mr. Cody, who at that time was sheriff. The horses were taken by the officers and no bond for their safe-keeping was given. They were placed in a barn in Frederic and that night the barn burned together with both horses. Mr. Johnson claimed damages and was sustained by the jury by being awarded \$400. The neglect in this case appears to fall upon the plaintiff in the replevin case in failing to furnish the usual bonds for the safe-keeping of the horses. Two days were consumed in the trial.

E. M. Harris was attorney for Mr. Johnson and Homer L. Quay and Geo. L. Alexander for the defendants.

Three cases appeared in the Chamber list—that of Frank and Nettie Dreese, divorce, was continued; Robert W. Dunn vs. Ernest P. Richardson, bill of complaint on redemption of tax title, case was settled out of court; Francis P. Decker was granted a decree of divorce from Annie A. Decker.

Court adjourned soon after noon Wednesday.

BIG DEMAND FOR FARM LANDS.

From Alpena comes the report that there have been more real estate sales, chiefly farm lands, during the past fourteen months than in the past 14 years. It sounds just a little bit exaggerated, but reports which Secretary Marston, of the Northeastern Michigan Development Bureau, has received from nearly every county in the district are to the effect that the demand for land, both improved and unimproved, was never greater than it is this year, and every farm sold means a new booster for the community into which the purchaser comes.

TELLS OF LUMBERING IN MONTANA.

The following letter was received from Andrew H. Jenson, who went to Montana soon after his return from service in the army, to enter into the lumber business,

Perma, Montana.

Sept. 22, 1919.

Dr. C. A. Canfield,
Grayling, Mich.

Dear Friend:

Am writing you a few lines to let you know I am on the job. You are getting lots of work; the mill is not very large, but it cuts twenty thousand feet of lumber and ties for nine hours. I think we can do better than this to when we get more men. We are starting to cut on an eighty that has over a million and a half feet of timber on it and it sure is fine timber. We have a steep hill that we shoot the logs down and they travel so fast, that they leave a trail of smoke behind them.

I will send you some pictures of the mill and shoot in the next letter. The fishing is good here in the Flathead river, some weigh as much as ten pounds and also lots of ducks and geese, bear and deer.

Well I think I will close for today hoping to hear from you soon.

1ST EXPERIENCE ON THE BENCH

BANQUET GIVEN IN HONOR OF NEW CIRCUIT JUDGE

Is Warmly Welcomed to This Community and Assured of Support of Citizens.

Hon. Guy E. Smith, of Gladwin, successor to Hon. Nelson Sharpe as judge of the 34th Judicial circuit court, had a new experience in life last Monday. His service upon the circuit court bench began in Grayling that afternoon. Instead of standing before the court and jury, he sat upon the bench and listened to others. Many knotty problems were presented and were decided after careful consideration and reflection. His attitude in all matters throughout the session and his broad knowledge of the statutes are strong assurances that this judicial circuit is in good hands.

Hasty plans were made Monday for a reception to be held in the Banquet room of the Michelson Memorial church that evening, to which a few of Grayling's professionals, official and civic representatives were invited. A splendid banquet was served by the ladies of the Ladies' Aid society of the church. Altho planned upon short notice there was nothing omitted toward making the dinner complete and delicious.

The speeches were few and full of interest. Supervisor Marvin A. Bates acted as toastmaster and paved the way for each speaker, so that he might feel at home and the crowd in a happy mood to listen.

Rev. C. E. Doty had been requested to represent religion, and gave a most interesting discourse. Marius Hanson represented the business men of the community and gave Judge Smith many wise suggestions and warnings in regard to some of our people, especially as to the legal profession.

Attorney Geo. L. Alexander talked from the standpoint of legal profession and was easily the bright spot in the galaxy of star speakers of the evening. He pledged to Judge Smith the utmost fidelity and co-operation on the part of the members of the bar.

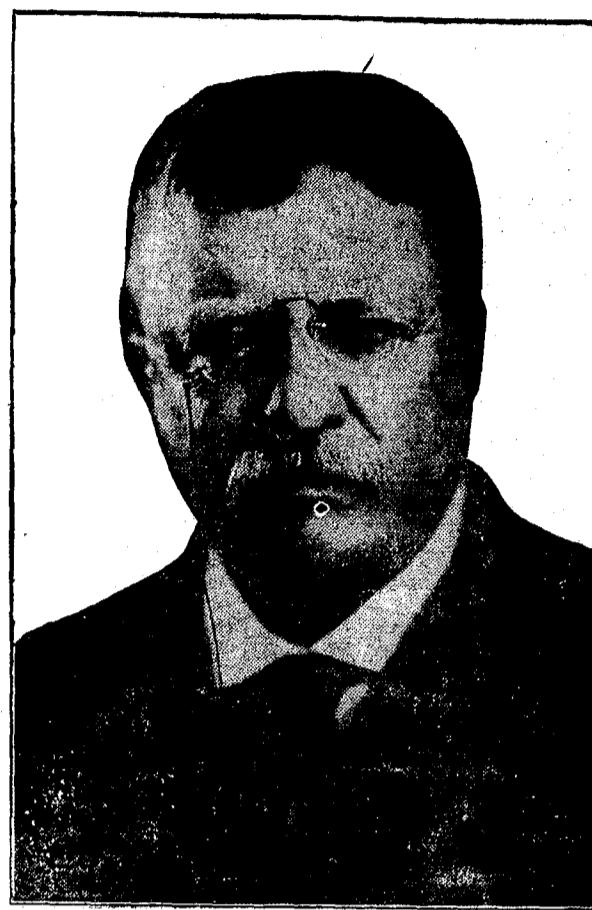

Prof. Otterbein's remarks were largely psychological and he related some of the interesting experiences of the great philosopher Socrates.

Rasmus Hanson was very cordial in his welcome to Judge Smith to this community and assured him that he is now one of us. As usual Mr. Hanson said some things that hit the spot and gave his auditors something to reflect over.

Judge Smith was the last speaker. He said at the outset that he had had a new experience that day, meaning, of course, that it had been his first "offense" as circuit judge. He stated that he did not pretend to be a speaker, and then proceeded to give one of the most pleasing talks of the evening. He is in every way, modest and unassuming and feels keenly the responsibility of his new position. By his remarks he established himself firmly in the confidence of those who heard him.

It was an exceedingly pleasant evening to those who were privileged to be there, and one that will be remembered by them. Together with the words of welcome expressed that evening the Avalanche, which represents the community in general, including every branch of social, industrial and professional life, wishes to most heartily add its welcome and well-wishes to one whom is to preside over the judicial destinies of our people.

HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had headaches, my back ached all the time. I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I bought Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backaches and headaches disappeared. I gained in weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."—Mrs. ADELINE B. LYNCH, 100 Plain St., Providence, R. I.

Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment.

Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

"But they won't hurt you, will they?"

"Come on over here," he suggested.

County officers claim that he induced his fellow-countryman to let him take \$1,000 in bills to be used in the money-making scheme, after showing a new two-dollar bill as a sample of the manner in which the machine worked. Janzen received in exchange a package of waste paper faced on each side with a new bill.

Muskegon—Muskegon voted 5 to 1, adopting a new charter which provides for seven commissioners elected at large and a city manager. Of the 3,000 votes cast 2,600 were for the charter. Prosecutor Brook was to meet with Colon Campbell of Grand Rapids, and City Attorney Rhodes, Lansing, the State's special investigators, at Lansing to consider a report on the grand jury investigation here.

Mrs. Max Landsberg spent a few days in Bay City, returning Wednesday afternoon. She was accompanied home by her daughter-in-law, Mrs. Ben Landsberg of West Branch.

George Smith of West Branch and Miss Irene Zettel of Dayton, Ohio, were guests of the former's sister, Miss Coletta Smith, at the home of Angus McPhee, the latter part of the week. They came to attend the dancing party given by the local post of the American Legion, Friday evening.

August H. Amos of Owosso, was in Grayling last Saturday and Sunday shaking hands with old friends and acquaintances. While here Mr. Amos sold his cottage at Lake Margrethe to Thomas Cassidy. Mr. Cassidy had sold his own cottage to some Detroit parties. The Amos family who were former residents of Grayling, left here about nine years ago for Owosso.

Tracy Nelson, Carl Doro, Clarence Johnson, Roy Milnes and Floyd McClain were elected to membership in Portage Lodge, K. of P. last night. Now all that remains before they become full fledged Knights is to pass thru the initiatory ranks and there learn the beautiful lessons of pythagoreanism, which are founded upon the strongest bonds of friendship ever known between men.

Announcements have been received here by friends of the marriage, on Thursday, October second, of Miss Lucille Campbell and Mr. Dan Custer in New York City. The bride is a sister of Mrs. A. M. Lewis of this city and is quite well known to many here, as she taught for a couple of terms in the Grayling schools. Mr. and Mrs. Custer are spending their honeymoon and expect to spend part of the winter on the Bermuda Islands, but their home will be in New York City.

Burglars entered the office of Yuill Bros. of Vanderbilt, Tuesday night and stole the safe. It weighed about 700 pounds. The thieves rolled the safe on the sidewalk to the edge of the town and there they smashed it open and robbed it of about \$300.00. One lady hearing the noise looked out and saw the men. They were six in number. Evidently they were not regular yeggmen, or they would not have gone to so much trouble to open the safe, but would have cracked it where it stood.

A. H. Kidston is confined to his home with a bruised arm and knee, the result of his falling from the switch engine in the local railroad yards Saturday fore noon. As the engine was running passed the depot at a good rate of speed, Mr. Kidston jumped off, he intending to get some orders in the yard office. In jumping, one of his gloves caught in the bar, which is used for the switchmen to hold on when they jump off or on the engine, this causing him to lose his balance and fall almost directly under the wheels. Before his glove let go he was dragged about fifty feet. Although Mr. Kidston was painfully injured he was optimistic over the affair and said he was lucky not to have been killed.

Miss Eulah Maxwell, the only Caro girl that had the nerve to take a flight in the aeroplane last Monday, found it a most exhilarating trip. "I never imagined we were flying so fast nor so high, thought about ten miles an hour and possibly five or six hundred feet high, for it was like a nice little auto trip along main street. There were no bumps or lumps, or unpleasant sensations, as so many said there would be. When we came to alight, it was like coming down in an elevator, only no jar or suddenness. I never imagined before what an air flight was like. Now I know it is simply too wonderful for words, and I would certainly love to go again." Every one was curious to know how high up she was, how fast she went, and how long she was up, and as Eulah was too excited when she came down to ask, or care, had to call the aviator up and find out. She was informed that they were up twenty-two hundred feet, were going between fifty-five and one hundred miles an hour, and were up about twelve minutes. U. OF M. WILL BATTLE M. A. C. ON GRIDIRON SATURDAY.

Captain will meet captain when the Michigan and M. A. C. foot ball teams clash on Ferry field Saturday afternoon. Captain H. E. Franson, the Aggie leader, plays right tackle, while Angus Goetz, field leader of the Wolverine eleven, plays left tackle.

The rival captains are both regarded as the strongest men in their respective lines, and a battle royal is expected when the two stars clash.

M. A. C. has four other former captains in their 1919 team, all of her former leaders playing in the line.

Goetz has slight advantage in weight and height, but the difference is so little that it will be practically an even battle. The Michigan leader weighs 187 pounds, while the Aggie captain is within three or four pounds of this mark. Both men are big, aggressive players.

Both Goetz and Franson come from the upper peninsula of Michigan. Goetz lives in Detour, just outside Sault Ste. Marie, while Franson is from Iron Mountain. The Aggie captain is 23 years old, a year older than Goetz.

Rivalry that dates back to 1898 will make the two teams fight every minute of the 60 that they will be in action Saturday afternoon. A victory for Michigan will give the team needed confidence for the five hard games remaining on their schedule. A win for M. A. C. would mean a successful season for the Aggies.

Yost's team has not yet hit its real stride. The Wolverines have played but one game and will just begin to pick up momentum by the way of the M. A. C. game. The Aggie squad, on the other hand, has played three hard games, two of them hard battles, and should be at top form for its biggest game.

Michigan has won 10 of the 13 games that the two schools have played. The Aggies have won two, while one was tied. The Wolverines have scored 347 points to 55 for the farmers. In the earlier years Michigan teams used to regard the Aggie game as an easy affair. In later seasons the farmers have grown stronger, and recent contests with M. A. C. have, for the most part, been bitterly contested.

You Are The Only One Who Can Attend to Your Home

And your home, your family, is your first duty. You should not, therefore, do things outside your home which someone else can do better and cheaper than you can yourself.

We are thinking especially of excessive grocery "shopping" and carrying home a heavy basket.

There's no need for you to rob your home of your attention by doing these things, because at our store we do them for you.

We do your grocery shopping by carrying only the best products and selling them to you at fair honest prices. And we send them home for you because we believe we can perform this service cheaper and better, and certainly more satisfactorily than you can do it for yourself.

We are service grocers. We believe that being grocers means something more than just having things for sale.

Part of our service consists in telling you about the good things we have discovered in our "Shopping for you."

For example there's Ryzon Baking Powder. We recommend Ryzon because it is the scientific product of a great chemical organization; because after testing it in our own homes we find it to be truly economical and thoroughly efficient. It is 40c per lb—and if you haven't the Ryzon Baking Book ask about it at once.

Oscar Olson has started to climb the ladder of success, starting at the bottom rung. His first endeavor is shining shoes and doing porter work in Cowell's barber shop. Oscar is a very industrious sort of a boy, as when he is not working at his place of business he is home piling wood, or making himself useful around the house. The friends of his brother Paul Olson, may be interested to know that he is on his way to South America, on board one of the U. S. Shipping Board boats.

Allen B. Failing has given up his position as clerk in the Salling Hanson company store, and will enter into the farming industry. He expects to go onto his mother's farm in Beaver Creek at once and begin operations. Mr. Failing says he has about 132 acres of his own adjoining to his mother's farm, and he will also work what he has cleared of that, and endeavor to clear the rest. No doubt he will make farming a success, just as he has done everything else that he has undertaken to do. Tracy Nelson has accepted the position as clerk at the store to fill the vacancy of Mr. Failing.

The first social affair to be given by Post No. 106, American Legion—the dancing party last Friday evening at Temple theatre, was enjoyed very much, especially by the younger set. There was quite a large crowd present and Clark's six piece orchestra furnished the music. Very delicious sandwiches, cake and other good things made up a serve-a-self luncheon that was enjoyed by everyone free of charge. They expect to give many parties this winter, and if they are all as enjoyable affairs, as the one given Friday evening the Legion will gain popularity for the manner in which they entertain.

Early last evening the automobile of Roy Barber played one of the funniest pranks that has ever been witnessed in Grayling. Mr. Barber had gone into the bakery leaving his car near the walk, and while he was gone it started up and ran across the street crashing into the front of the building used as a ware house by Salling Hanson company, breaking all the windows on the one side of the front of the building. It made an awful noise and the machine would probably not have stopped where it did had it not been for the supplies that were piled up in the building. There was no one in the machine at the time it started.

The local lodge I. O. O. F. tendered Mr. and Mrs. James Olson, who are soon to leave Grayling for Oxford, Mich., a farewell reception at the Temple theatre Monday evening. A happy time was had at cards by the fifty guests who were present. The Oddfellows had also invited the Rebekah ladies to be their guests for the evening and in all it made up a very pleasant party. Mr. Olson has held different offices in the lodge, and the members regret losing such an active member. The delicious lunch served at a late hour was prepared by a number of the I. O. O. F. members and was fine. Everyone on departing for their homes wished Mr. and Mrs. Olson much success in their new home.

Rathbone Lodge Knights of Pythian of our city is planning on a real live basket ball team for this coming fall and winter. The team will be composed entirely of members of the order and the consensus of opinion prevailing among the members, we'll show 'em or they will have to show us. Fine new uniforms with the emblems in the colors of the order on them, have been ordered, and the probable schedule of games for the season will include games with lodges at Gaylord, Grayling, Cheboygan, Bay City and Midland. West Branch is a real live basket ball town, and the citizens should lend this organization their support, a fact which will and always has been their good fortune to enjoy. Usually anything the K. of P. put on, they make it a headliner.—Ogemaw County News.

Tuesday evening at the local M. G. railroad station, there was held a Safety Rally, which was largely attended by railway workers and trainmen. The speakers were F. H. Davis and Ed. O'Brien of Bay City and Charles Storrey of Detroit. All of these gentlemen are employees of the railroad company, and it is regretted that some of our townpeople did not hear the remarks which were made on behalf of efficiency and safety. The Railroad administration is planning a "Safety First" campaign throughout the country from October 18 to the 31st, and it is planned to interest not only the men themselves, but their families and the public. No doubt, if the men live up to the advice given them by the speakers, the Michigan Central will prove to the Government that they are one hundred per cent in efficiency and safety first. It is well for us all to bear the slogan in mind, "Watch your step, and don't get hurt."

THREE AVIATORS CROSS COUNTRY

LIEUTENANT MAYNARD COMES IN FIRST WITH LIEUTENANT KIEL SECOND.

TIME LESS THAN 25 HOURS

Wrong Landing Made By Major Spatz Beats Him Out of Second Place By Three Minutes.

New York.—Lieut. B. W. Maynard, the "flying parson," Lieut. E. C. Kiel, a school teacher and Maj. Carl Spatz, a soldier, were hailed as the new air pioneers. They were the first three men to fly from coast to coast in the trans-continental air derby.

Lieut. Maynard was the first to complete the epoch-making flight. He left Roosevelt Field, Mineola, N. Y., at 9:24 a. m. (Eastern time) Oct. 8, and arrived at the Presidio San Francisco, at 1:13 p. m. (Coast time) Oct. 1. His actual flying time was 24 hours, 58 minutes 1 1/2 seconds for the 2,701 miles, and his elapsed time was 76 hours 47 minutes.

Lieut. Kiel completed the journey from San Francisco to Roosevelt Field only 20 seconds behind Spatz.

When Maj. Spatz and his passenger, Sgt. Emmett Tanner, stepped from their machine the spectators learned of a wrong landing made at Hazelhurst, Maj. Spatz had been leading Lieut. Kiel by eight minutes—and the wrong landing enabled Kiel to reach Roosevelt Field ahead of him.

While Lieut. Kiel touched the ground at Roosevelt Field 20 seconds before Maj. Carl Spatz in the dash from West to East, Maj. Spatz was credited with second honors, having left San Francisco three minutes behind Lieut. Kiel.

Maynard, Kiel and Spatz piloted De Havilland Fours equipped with that type of engine, developing 400 horsepower. Their machines were capable of making 120 miles an hour, but this speed was exceeded several times under favorable wind conditions. Maynard averaged 105 1/2 miles an hour for the entire route.

Five men had met death. They were: Sergt. W. H. Nevitt, observer for Col. G. C. Brant of Plane No. 4, which crashed at Deposit, N. Y. Wednesday; Maj. D. H. Crissey and Sergt. Virgil Thomas, whose plane No. 66, crashed at Salt Lake City; Lieut. E. V. Wales, No. 33, fell at Ovid Pass; Worth D. McClure, observer for Maj. A. L. Sheed of plane No. 24, which made a bad landing at Buffalo.

Under the rules there was no Sunday flying, so both east and west-bound aviators rested Sunday.

The return flight was undertaken according to the same rules and regulations which governed the first half.

WHY LEAVE THE FARM FOR THE CROWDED CITY.

The city editor of the Bay City Times-Tribune recently spent several days driving through parts of the counties in the district and a part of the time was spent in making personal visits among the farmers. One thing which struck him forcibly was that he found a number, especially among the younger men, planning to go to Detroit or Flint for the winter because of the big wages offered there and in spite of the fact that reports from both those cities tell of

people walking the streets because they can find no place to sleep and of families forced to leave both cities because of rent profiteering.

Discussing this matter with the secretary of the Bay City Board of Commerce he learned that Bay City plants are paying wages which are just as high, for the same class of work, as those of Flint or Detroit, and that while houses are scarce there, it is an easy matter to obtain comfortable rooms. The same condition is said to exist in Saginaw.

"It seems to me that I would stick to the comfort of the farm and the home," said the newspaper man after his trip, "but if financial conditions made it necessary for me to go into the factory for the winter I would

surely keep away from the cities which can't offer a decent place in which to sleep except at exorbitant prices, and which gouge the stranger for even such places as they do offer."

WILL HANDLE MANY THOUSANDS OF SHEEP IN N. E. MICHIGAN

C. E. Burtless, a southern Michigan sheep breeder, who has been making use of the rich pasture lands of northeastern Michigan during the past three or four years for the pasturing of his herds during the summer months, has purchased the Anderson ranch of 2,800 acres, located not far from Prescott, and proposes to get into the game in northeastern Michigan on a scale heretofore not attempted by any one in the business in this section of the state.

By making use of other tracts which he will lease Mr. Burtless intends to have flocks of 15,000 to 18,000 sheep in northeastern Michigan next summer and he intends hereafter to winter in the neighborhood of 10,000 ewes.

He says that 200 acres of land producing alfalfa and root crops will provide winter feeding for all the sheep that he can handle through the winter, so great is its fertility and its special adaptability to the raising of clover.

Mr. Burtless, in the past few years has pastured sheep in ranches in Clare, Ogemaw, Iosco and other counties and he says that he now knows what can be done in a big way, and he is going to do it.

This last season he had a large flock on cutover lands near Prescott and last week he shipped from that point an entire train load of "feeders." The shipment was so large for this section of the country, that the Northeastern Michigan Development Bureau had moving pictures taken of the process of loading and shipping the animals and these pictures, together with some others taken on northeastern Michigan ranches will soon be shown in some of the movie theatres of this and adjoining states.

"The use of moving pictures to advertise its farming possibilities has been carried on by the Canadian northwest for some time," said Secretary Marston, of the Development Bureau. "and our views are going to show a diversity of possibilities in farming and ranching which are impossible on the great Canadian lands and which cannot fail to attract the attention of the live ones in every farming community."

OFFICE OF THE ASSISTANT TO THE SECRETARY OF WAR SERVICE AND INFORMATION BRANCH.

October 4, 1919.

Chairman, Bureau for Returning Soldiers, Sailors and Marines.

Dear Sir:—

The United States Civil Service in Washington, has called our attention to the Civil Service opportunities for ex-service men, and has asked our co-operation in bringing this matter to their attention. Thinking this may be of interest to you, we are sending the following information for such use as you may desire to make of it:

"Nearly ninety thousand persons will be engaged in the work of collecting the facts and figures about Uncle Sam's gigantic family after November 2, 1920, as that is the date set for beginning the enumeration of the population of the United States. In this project nearly eighty thousand workers will be engaged in field work, while a balance will comprise the Washington office force, where the tabulation, classification and statistical work will be done from the information secured from representatives of the Census Bureau in the field.

In this, as in every other Government activity, Soldiers, Sailors and Marines will be given preference in appointments. This is accomplished by giving all service men preference on the eligible list of the Civil Service register. The majority of the appointments of the Census Bureau are governed by the Civil Service rules and regulations and the Civil Service commissioner announces an examination for Census Bureau clerks on October 18th and November 15th."

There are about 3,000 local boards of examiners of the Civil Service in as many cities in the United States. These boards have a complete list of all Civil Service positions, and are posted up to date on all changes.

It is thought you might be interested to know that a Veteran Preference bill has recently passed Congress, giving preference in original appointments in clerical and other positions in the Executive branch of the Government in the District of Columbia or elsewhere to honorably discharged Soldiers, Sailors and Marines and widows of such, and to the wives of injured Soldiers, Sailors and Marines who themselves are not qualified, but whose wives are qualified to hold such positions. Details of this bill can be obtained through the local Board of Examiners of the Civil Service commission. Appreciating your co-operation, I am,

Very truly yours,
Mathew C. Smith,
Lt. Colonel G. S.

IS THIS YOUR EXPERIENCE?

Many Grayling People Are Afflicted With Annoying Kidney Ills.

Are you bothered with too frequent action of the kidneys? Are the secretions highly colored—do they contain sediment—burn and scald in voiding? These are all signs of kidney sickness and should not be neglected. Grayling people recommend Doan's Kidney Pills. If your back aches and your kidneys are weak you will find no better recommended remedy.

Peter Wm. Christenson, Chestnut St., Grayling, says: "I have used Doan's Kidney Pills at different times in the past, getting them at Lewis' Drug Store and they have always proved of great benefit to me. When my back has been weak or lame and the kidney secretions have been too frequent in passage, I have used Doan's Kidney Pills. They have always fixed me up in good shape."
